Cell Phone: (718) 844-2946   github.com/HeribertoUroza

TECHNICAL SKILLS:

- JavaScript
- HTML5
- CSS3
- Node
- Express
- React
- PostgreSQL
- RESTful APIs
- Git/GitHub
- JSON
- Axios
- DOM

PROJECTS:

Possible Pantry | www.possiblepantry.com | https://github.com/HeribertoUroza/pantry_managementFE

- Tackled food waste within the household by creating a virtual representation of their real-life pantry and help users keep track of the items in stock
- Created a system that automatically texts a shopping list to the user by integrating live data.
- **Front-End Technologies:** React Library, Bootstrap, Materialize, CSS, Netlify
- **Back-End Technologies:** Postgres, Twilio, AWS, Serverless, Heroku

ATU-Dex | https://admiring-jones-d1a510.netlify.com/ | https://github.com/HeribertoUroza/atu-dex

- Created an 8-Bit Style Single Page Pokedex
- Optimized searching by applying Local Storage as a cache for faster rendering
- Created a custom React paging system without utilizing a routing system (eg. React-Router)
- Utilized React Library, NES-style CSS, and Bootstrap to dynamically style the application

Gif Search| https://heribertouroza.github.io/Gif_Search/ | https://github.com/HeribertoUroza/Gif_Search

- An application that allows users to search their favorite gifs, save and send them to friends
- Utilized React Library, along with Giphy API and custom CSS
- Applied Local Storage to save favorite gifs and stored locally to the user's browser

EXPERIENCE:

Jefferies LLC   **Manhattan, NY**
Audio/Visual Technician   *Mar. 2013 - Present*

- Coordinates with Multi-Point bridging services to connect client video conferences. Creates a Cisco WebEx for multipoint services.
- Troubleshoots error reports on laptops including Dell, HP, Lenovo, and Microsoft Studio.
- Partner with IT and Help Desk to create tickets to install programs and troubleshoot equipment.
- Creates a quarter and annual reports for equipment usage and costs for Conference Center meetings, mailroom mail packages, and printing.

Intern   *Nov. 2012 - Feb. 2013*

- Developed an understanding of department functions of an outsourcing services organization, including business management, marketing/sales, operations, human resources, finance, and training/development.
- Managed outcomes without direct authority and contributed to innovation and efficiency in the organization.

EDUCATION:

Pursuit   **Queens, NY**
Full-Stack Web Development Fellow   *Sept. 2018 - Present*

- An intensive 10-month, Google-funded software engineering fellowship with a 9% acceptance rate (out of 1500+ applicants) whose graduates are prepared with both technical and professional skills
